APCD Showcase: States Leading by Example

Welcome to the APCD Showcase where examples from state all-payer claims databases (APCDs) have been organized in order to provide stakeholders with tangible examples of APCD reports and websites. The examples have been organized by intended audience, and are also searchable by additional criteria. We invite you to explore the site and learn more about the value that APCDs provide to states and their stakeholders.

Choose from the categories below or [See all Case Studies >](#)

Consumers

Consumer websites primarily focused on cost and quality

Employers

Employer and purchasing coalition efforts

Providers

Accountable Care Organizations and quality

Researchers

Academic and "think tank" research

Population Health

Incidence, prevalence, quality, and utilization

Insurance Department

Regulatory and market use cases

Medicaid

Comparisons between Medicaid and Commercial populations

Health Reform

Medical Home, Accountable Care Organizations & Triple Aim
